Getting Started

2

Purpose 2-3

Program portability 2-3

Prerequisite 2-4

Where to obtain program tar files? 2-5

What is Contained in a Program tar File? 2-7

Steps to run MM5 modeling system programs 2-7

Functions of Job Decks or Scripts 2-8

What to Modify in a Job Deck/Script? 2-8

- Shell Variables 2-8
- Parameter Statements 2-9
- Fortran Namelist 2-9

How to Build the Executable and Run the Program? 2-10

- Creating FORTRAN Executable 2-10
- Linking files to Fortran units 2-10
- Execution 2-10

Input Files 2-11

Output Files 2-11

Representation of Date in MM5 Modeling System Programs 2-11

Where to Find Data at NCAR? 2-12

Other Data Sources 2-14
